

**CITY OF IRVINE
MEMBER OF THE CITY COUNCIL**

SUKHEE KANG

AGE: 51

OCCUPATION: Business/Finance Commissioner

As the Mayor's appointee to the Irvine Finance Commission, I know that dedicated civic leadership and commitment to good planning have created Irvine's outstanding quality of life.

Irvine's \$100 million Annual Budget represents your hard-earned tax dollars put to work to guarantee that you and your family live in America's best-managed city.

As your City Councilmember, I'll continue to promote these budget priorities: safe roads and parkways with beautifully landscaped medians; top-notch police services; outstanding parks and recreation areas; special programs for youth and seniors; and the addition of the self-financed Great Park to the thousands of acres of permanently preserved hillsides, canyons, and open space we now enjoy.

My chief civic goal is to safeguard and further improve Irvine's quality of life. This requires City Council leadership and the active participation of Irvine residents. I believe the City Council should organize and conduct an "Irvine Annual Survey" - an on-line and direct-mail survey of every Irvine household for the purpose of ensuring that your City government's policies, budgets, and programs match the priorities of Irvine residents.

I hope you'll vote for me. You can count on me for the leadership Irvine will need in the future. Thank you.
